

Nguyen Chi Hai

IT Solutions | IT Sale | Software Engineering Graduate

Can Tho, Vietnam | +84 764 640 415 | chihai11102003@gmail.com | <https://github.com/GunkerK17>

PROFESSIONAL SUMMARY

Software Engineering graduate with hands-on experience in IT support, web development, marketing, and customer support. Experienced in communicating with users, understanding customer needs, troubleshooting technical issues, and translating technical requirements into practical solutions. Strong technical foundation in .NET, ReactJS, SQL Server, cloud services, and AI tools, with a proactive mindset and strong communication skills. Interested in IT solutions consulting and B2B technology sales, with a strong willingness to learn and develop in the IT/Telecom industry.

WORK EXPERIENCE

- 1. IT Support (Software) | FPT University Can Tho | Can Tho, Vietnam** *Sep 2025 - Nov 2025*
 - Supported students and faculty in using the university's **internal software systems**.
 - Guided users and **resolved technical issues** related to the LMS, Academic Portal, FPT Email, and Office 365.
 - Performed **password resets, account management, and access-rights administration** across the system.
 - Key Achievements:**
 - Kept internal software systems running smoothly for hundreds of daily users.
 - Recognized for fast issue resolution and a strong customer-service attitude.
- 2. Web Developer Intern | FPT Software Ho Chi Minh (OJT) | Ho Chi Minh City, Vietnam** *May 2024 - Aug 2024*
 - Contributed to the development and optimization of web modules for real-world projects.
 - Worked with **ReactJS, .NET, and SQL Server**, following an **Agile/Scrum** workflow.
 - Key Achievements:**
 - Delivered all assigned modules on schedule within a real enterprise environment.
- 3. IT Marketing | IAUS | Vietnam** *Nov 2025 - Jan 2026*
 - Managed and updated content across the company website, fan page, and digital channels.
 - Provided **technical support** for marketing activities: posting content, editing web interfaces, and landing pages.
 - Handled technical issues related to the website, hosting, and domain.
- 4. YouTube Channel Management | ANS Co., Ltd. | Vietnam** *Jan 2026 - Jul 2026*
 - Deployed, operated, and managed content distribution on the YouTube platform.
 - Data analysis:** used YouTube Analytics to track views, watch time, and retention to optimize channel performance.
 - Applied AI:** built internal tools/scripts connecting the Claude/OpenAI Codex API to automate scripting, title optimization, and SEO content creation.
 - Key Achievements:**
 - Streamlined the content scripting and SEO workflow using self-built AI tools.
- 5. Independent Project – International Customer Support | Remote** *Jan 2026 - Present*
 - Provided online support to international customers, primarily from the US, regarding service registration, account setup, configuration, and troubleshooting.
 - Communicated directly with customers to understand their requirements and provide appropriate technical guidance.
 - Assisted customers with account security, access permissions, and service-related issues while following security policies.
 - Managed customer requests independently, prioritized issues, and followed up to ensure problems were resolved.
 - Developed strong communication, problem-solving, and customer service skills through direct interaction with international customers.
 - Key Achievements:**
 - Successfully supported **36 + international customers** with account setup, troubleshooting, and service-related issues.
 - Maintained consistent customer support and follow-up, contributing to a reliable and professional customer experience.

EDUCATION

FPT University Can Tho — B.Eng. in Software Engineering, 2021 - 2025, GPA: 7.0/10

ACADEMIC & PERSONAL PROJECTS

- **Football Field Booking Management System (Web & Mobile):** Developed a platform for booking and managing football field reservations using ReactJS, React Native, and TypeScript. Implemented user authentication, booking management, and responsive interfaces.
- **Online Customer Service Platform:** Developed and maintained a digital service platform, supporting customer requests, account setup, troubleshooting, and service-related issues. Worked directly with international customers and applied AI-assisted tools to improve workflow efficiency.
- **Salary Tracking Web Application:** Built a web application for tracking and managing personal salary and income information using JavaScript.
